The government of the United Kingdom whether at the Prime Ministerial level or the Monarchical level have no principles of truth, justice and democracy. If the nation had that we would still be in the European Union and should rejoin (notwithstanding that in my immature days I thought that the United Kingdom was a free and democratic country so would benefit from individual and national independence.

As never before, we must stand with Ukraine!

The MAGA propaganda machine is now in full force. They will attack Zelenskyy for not "respecting the Oval Office," for being "ungrateful," and for not being "ready for peace." Trump needed another excuse not to support Ukraine. He promised to stop the war — but he cannot. Now, he can shift the blame to Zelenskyy and Ukraine, accusing them of not wanting peace.

Frankly, I don't see how President Zelenskyy could have responded any differently to the blatant lies thrown at him and his country. Trump continued to push the false claim about "$350 billion" and belittled Ukrainians, suggesting they "wouldn't last even two weeks" without American support. Meanwhile, JD Vance outright accused Zelenskyy of engaging in "propaganda tours."

Trump and Vance tried to turn Zelenskyy into a scapegoat. But he refused. He did not allow himself to be humiliated or Ukraine to be trampled.

World leaders stand behind Zelenskyy and Ukraine. And we must, too!

Trump is an antidemocratic felon and showing that he in his old age is assuming dictatorial powers to get into bed with the megalomaniac Putin who should be captured and brought to justice as a monster. Zelensky is the saviour of the Ukrainian people a real master tactician who has sacrificed his years to retain dignity for the Ukrainian people who we in the United Kingdom should support. To protect American State, Trump was let off the hook and did not end up in prison before the election took place for the Presidency of the United States of America.

Hello Andrew

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head

of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The Special relationship with the United States of America is already proving to be not what it has been cracked up to be. Our economy is better off with a bias in Europe.

Can we discuss these matters?

Yours sincerely

Subject: Re: Good News It is a pleasure to meet you

Hello Andrew

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The Special relationship with the United States of America is already proving to be not what it has been cracked up to be. Our economy is better off with a bias in Europe.

Can we discuss these matters?

Yours sincerely

MAKING IT UP AS ONE GOES ALONG

Words are just words that we have inherited from past generations of human beings. They are open to different interpretations as suits a particular raison d'etre. When one is living in the freedom of satya-advaita yoga, one necessarily makes up new words as one goes along or adapt old words to meet a particular requirement of what one is trying to express. It is in this context that my books are to be read and the readers have to form their own opinions on whether I have been crystal clear on what I have thought about relating to my experiences of life over the past 24 years. I am of course open to providing any clarifications needed on the basis of my actions at any particular point in time and how I have expressed those in the 13 Books that I have written in the Series under the theme, 'The Allurement of Reality'. But I hope that now such clarifications would be necessary or me be called upon to answer. I wish to let my books do the talking. This is because I am not a very good speaker in public, and even in the creation of Videos that I attempted over the past year to develop my websites. I am good at writing. For I allow truth to just flow into my mind at the appropriate time and this creates the works that I have been producing.

So in what context am I using the words Samadhi and Mahasamadhi. I wish to make it clear at this point in time. For me Samadhi started on completion of my Book Truth-accommodation (Satya-advaita) and I stared writing the book 'Post-realisation Musings'. They were semi-

conscious assessment of the knowledge that I had gained and the missing data that I needed to be searched for still in order for me to arrive at a comprehension on the Conception of Reality, the first book under the theme 'The Allurement of Reality' that I had started writing in 2004 when I came out of the mental hospital for the first time. It grew and grew into what it is today. I had tried to consider numerous times during these years that I had had total Realisation, even my elder sister in India had pointed to this in one of her utterances to me, but it turned out not to be the case. When can Realisation be complete when one does not what there is to Realise. It had to be awaited with patience. And I formulated a plan of self-discovery to try and get to it. This was to have a framework where I hypothesised that everything in the universe is pre-ordained and pre-orchestrated, so there was God having set the universe in motion in a particular manner; the best bhakti that I could approach God with was to discover my own fate within the Grand Design, and this was latterly over the past 15 months or so done through losing all attachments, and acting nonchalantly, spontaneously and unpremeditatedly in all my moment by moment actions as the only karma that I would engage in that could with certainty be then described as sanatan dharma, that is to say karma in sanatan dharma.

When I seemed to be surviving the persecution that was vitriolic against me in conducting myself in this manner I was picking up evidence of Dharma Rakshati Rakshita as being the eternal law of the universe, and this has not changed at the moment that I am writing this account at 10.37 am on the 12 of October 2021.

Households will continue to feel the pressure of high energy prices for gas and electricity in the United Kingdom with the limited resources avaiable from domestic North gas supplies and importation of gas that the Net Zero target with the phasing out of coal in the decades ahead for its high degree of pollution and Climate Change impacts.

More is needed urgently to save energy from the usage of fossil fuels and atomic power into diversifyiing energy supply to individual households and business instituions across the country.

This morning I have started a petition at 38 Degrees to this end, which I am inviting all who read my websites to consider signing:

Hey everyone! I wanted to let you know that I have a brand-new jacket store. It can be purchased in-store or online. I recently introduced our shop's first women's varsity jacket. My team designed this jacket using highly superior materials, especially for the coldest months.

Hello Andrew

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The Special relationship with the United States of America is already proving to be not what it has been cracked up to be. Our economy is better off with a bias in Europe.

Can we discuss these matters?

Comments:

I am not replying as it is now a trap on me as Peter Cook has backtracked from taking contributions from me by skipping over the email that he had sent me the first time round. Now he will complete the process of covering up if I give him a chance for during the last election campaign in June 2024 he said I as a psychiatric patient and that is why he has used the single word ‘Delusional’ in this email. So I cannot acknowledge this email. The one acknowledged is the one that he offered me the chance to contribute to the discussion. I have already contributed by pointing out the Surveillance State that terrorises people and 38 Degrees has allowed it to stand unchanged.

18.58 pm (UK-Time) 01 March 2025

I was in no man’s land, not knowing the direction of progression with no emails coming back so at 20.05 pm published the above correspondence with my Updating Comments in Daily Bulletin:

https://www.knowledgeassessmentanddissemination.com/post/re-good-news-it-is-a-pleasure-to-meet-you

20.07 pm (UK-Time) 01 March 2025

Comments:

The very fact that he acknowledged the substance of my scenarios for discussion purposes and the Conservative Libertarian Society's Cultural Republicanism agenda of mine means that it is legitimately in the frame for discussion.

Hello Andrew

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The Special relationship with the United States of America is already proving to be not what it has been cracked up to be. Our economy is better off with a bias in Europe.

Can we discuss these matters?

Yours sincerely

Updated this book in Internet Archive and in The Allurement of Reality in Review Shop to the Introduction of 'Done it'; after receiving a 'Finance' acknowledgement from Peter Cook. For I had made sure that I included the Conservative Libertarian UK Membership website in the latest Page in the TCLS website for previously it had the Global Conservative Libertarian link there.

THE CONSTITUTION
The Party Political Ethos
THE POLICY OF WRITTEN CULTURAL-REPUBLICAN CONSTITUTION PROPOSED BY CONSERVATIVE LIBERTARIANS (UK)

(Working Draft: 14.00 am 01 February 2025)

Preamble
People need to know where they stand in relation to the government under which they live. The ethos and principles of The Conservative Libertarian Society (https://theconservativelibertariansociety.com)
Conservative Libertarians (UK) situated at https://www.theconservativelibertariansociety.com/blank is the political offshoot of the Global Movement The Conservative Libertarian Society' (TCLS) which currently also incorporates TCLP-USA situated at https://the-conservative-libertarian-party-of-usa.odoo.com/

TCLS and its offshoot subscribers are Vishista Advaita Vedantists (see http://vishistaadvaitavedanta.com) a universal religion that acknowledges the existence of a Personal God that they have named as being Sri Krishna-Durga but as humans they practice karma (actions) in sanatan dharma independent of God. A human being can be God through satya-advaita yoga of oneness with truth and through the mental loss of attachments to act spontaneously, nonchalantly and unpremeditatedly, eventually without inhibitions; yet even at its peak the person becomes at one and yet distinct from God in what is termed achintya bhed abheda tatwa. The religious congregation is named Vishista Advaita Sampradaya that is free of the biases of caste, race, language and sexual differences between individuals. Membership of the religion-based political movement can be taken here: https://app.joinit.com/o/conservative-libertarians/

Conservative Libertarians (UK) is an accredited political party with a preliminary application to the Electoral Commission but only has 3 members and no officials apart from the Founder and Leader of the TCLS and the Party, Dr Shantanu Panigrahi.

The philosophy of TCLS and hence Conservative Libertarians is security for liberty and liberty for security. This is the essence of living. We need to be very careful in making our decision on actions that we should take every moment of life by a thorough understanding of the laws of Nature, and taking opportunities to better ourselves materially and spiritually through the passage of time in a risk-averse attitude that conserves and builds the material and spiritual 'house' that we live in. This is the meaning of Environmental Sustainability at an individual level. One step at a time and see which way the wind blows before jumping on to the next step to try and enhance one's prospects for self-preservation and the appropriate development of the family and the wider society that we are governed by to regulate and control our human activities. Being libertarian per se is not the objective of the personal or communal struggle. One cannot isolate oneself from wider humanity, for we cannot each individually do all of the

things that we need to feed, clothe, house, study and develop our knowledge which is the fundamental basis of actions individually and collectively. We need like-minded people according to the saying birds of a feather flock together to create a Party of political activists who would argue their case and take part in democracy to influence changes to the society in a peaceful and totally non-violent manner, not even protesting on the streets; by persuasion of ones principles and belief-led mission to better ourselves in our mental development and better our chances of survival in a tough Nature that restricts our abilities to act selfishly and in greed for gathering in the natural resources for our own consumption from the Planet that we inhabit. This is the ethos of Conservative Libertarianism, and it is a semi-secular conception in the sense that while we know God is the Creator of the universe and is a Personal God for those of faith, Nature has a built-in Gaia mechanism of checks and balances that carves the path to the emergence of new races and species of life forms on Earth; the existence of God should not concern humanity which has to mind its own business. It is therefore imperative that we focus only on taking the right decisions ourselves without resort to a higher authority, be that human or spiritual in being a Conservative Libertarian.

Conservative Libertarians (UK) believe that of paramount importance, the United Kingdom must have a written Constitution to begin with and in the longer term develop the nation into a Cultural Republic through the structures of democratic and law enforcement institutions that the Constitution must incorporate a declaration on human rights. By Cultural Republic, we swear allegiance to the Monarchical Establishment once we have shaped it to essential democratic imperatives that come from understanding human nature and its diversity. Conservative Libertarians learnt through the Founder's travel journey that ideals of truth, justice and democracy is not possible without structural changes to the Constitution of the United Kingdom because without changes society cannot prevent the present unwritten Constitution being misinterpreted by vested interests for corrupt purposes and across the board of the State. The Party has experienced tremendous shortcomings in this regard and so campaigns for started with prescribing an amended Constitution through due process in the Houses of Parliament, primarily by instituting a Select Committee specially convened for the purpose because the Party had gone through all other processes of Parliament and Courts and it has not received a positive response for this much-needed change. The objective of the Party is to develop a mild form of Republican Constitution that incorporates a Cultural Monarchy as the Head of State with a Written Constitution that keeps people well informed on who is in charge of the procedures of the Houses of Commons and Lords, what the functions of the Consultant Psychiatrists, Chief Constables of Police Forces are and who are the officials of the State institutions and agencies against whom a citizen can successfully prosecute in civil and criminal courts; these amendments that will make people and institutions across the board accountable to the public into the fundamental principles of truth, justice and democracy. For these objectives to be met TCLS and hence Conservative Libertarians (UK) foster a State composed of a Royal Family with a difference in that the Monarch is assigned the status of a semi-ceremonial King or Queen (hence-forth entitled the Cultural-Monarch with implicit duties over the House of Lords, the revision chamber of Parliament that functions as in the traditional democratic institutions the House of Commons being elected a political institution derived from an electorate of 18-aged plus citizens up to the 85 years of age, this upper age limit being set by the medical determination that the productive capacity of individuals to contribute to the State is limited to by their age when their judgments become haphazard from senile day, dementia/Alzheimer's and other disorders in physical and mental attributes. This would apply also to the Cultural Monarch as the figure-head Head of State, who should further only remain in that position for a fixed reign of 20 years at a single stint following which his or her continuation in the role must be put to the electorate in a referendum when people have the opportunity to judge whether he or she has discharged his/her duties to the State to an

acceptable standard. Within this ethos, Parliamentary decisions on enactment of laws are to be revised by the traditional process by peers in the House of Lords as currently in place with the scrutiny being final and simply rubber-stamped by the Cultural Monarch. The Privy Council will be renamed as the Royal Board with altered functions as an institutional chamber to direct the democratic processes of the House of Lords on behalf of the Cultural Monarch who will only sign on the dotted line for final endorsement of a Parliamentary decision. By making the House of Lords an elected chamber, it would be the second chamber whose decisions are final on Bills enacted at the House of Commons.
Thus, the House of Lords as an elected Chamber can override the decisions of the Prime Minister in the House of Commons after the usual three revisions of legislation voted on in Lower Chamber as a Bill goes to and fro until agreement is reached between the Prime Minister and the House of Lords.

The House of Commons will be political Parliament according to party-politics but the House of Lords will be apolitical. Being the Administration of Parliament all government Ministers will be appointed by the Prime Minister from the lower chamber and the Civil Service will be attached solely to this Executive.

The present Privy Council with intersections with different elements of the State will therefore be abolished by its Royal Board replacement as an independent body attached interfaced between the House of Lords and the Cultural Monarch; to the latter as an advisory institution ceremoniously signing on the dotted line. The Royal Board will be responsible for the selection of candidates applying to stand independently in elections to the higher Chamber of Parliament. It will appoint 3 candidates in each of enlarged Constituency with the First past the post system of election. The House of Lords will have 200 peers.

Legislation proceedings in the House of Commons will therefore continue to be read any kind of Royal scrutiny by the Cultural Monarch's speeches at the beginning of each term of Parliament and the proceedings in each chamber will be conducted by the Speaker elected from within each House that will set out the Bills for debating in the next Session of Parliament; the Speakers thereby only giving ceremonial assent to the Bills from the Executive presented by the Prime Minister for debate and amendments in the Lower Chamber implementing the policies of the Party that that form the government as a result of who wins the general elections. The House of Lords revision of Bills will be restricted to only those formulated in the House of Commons. The Prime Minister will not have audience with the Cultural Monarch during a Parliament.

Conservative Libertarians (UK) will therefore reform of the House of Commons and the House of Lords as elected chambers of Parliament. The Executive will be appointed as the Prime Minister by the elected political parties with no requirement of Royal prerogative powers for government Bills have to be agreed with the House of Lords. The Commons will remain the administration of government without being subjected to the daily oversight of the House of Lords and Royal Board headed by the Cultural Monarch except for the enactment of Bills voted for by Members of Parliament in the lower chamber after its passage through the House of Lords. The Cultural Monarch will solely appoint the members of the Royal Board, which will have 12 selected officials. This would be the only power of the Cultural Monarch in the government of the nation. The Prime Minister in the House of Commons and will write Speaker's Speech in the House of Commons with the Speaker delivering it from the Executive in a ceremonial role. The Commons will therefore not take directives of the Cultural Monarch. The House Lords who would be elected every 10 years whereas the House of Commons will have fixed 5-year terms with the Prime Minister not having the power to call an earlier general election at any time without a vote

in the Lower Chamber decided by a simple majority. The House of Lords will not have the power to intervene when the general election is held.

There will be devolution of political administration to local elected Councils and regional States under Federation as Scotland, Wales, Northern Ireland and England Overseas Dependencies and Territories such as the Falkland Islands. These territories will be free to make their own decisions on how their local governments operate through votes in local referenda without having to seek approval from Westminster.

Rationale for Amendment to a Written Cultural-Republican Constitution
Conservative Libertarians (UK), on 17 May 2024, became a Republican Party, for reasons set out here: https://www.theconservativelibertariansociety.com/post/the-conservative-libertarian-party-of-the-united-kingdom-turns-republican.

The government must serve the people, not the people serve the government.

The Founder of Conservative Libertarians (UK) has specialised in dealing with national and international criminals that he started this project in 1998 when in the University of Greenwich that continues to owe me £55,000 in severance pay with its co-conspirators going by the pseudonym of Victims of Panigrahi Association (VOPA) who were then and have since then terrorised the Founder, but he found a way of coping with it. He did not care where they persecutors come from, he endured police brutality, victimisation, religious persecution, obstruction of justice and flagrant perverting of the course of justice that deprived him of £300 million in damages and compensation and an apology that he demanded against the co-conspirators operating with the University of Greenwich. In the end what was revealed is that the Courts and Judges processing his Claim against the Police and successive Prime Ministers responsible for the miscarriage of justice were directed by forces above, and this was the existence of a highly secretive Monarchical Establishment.

Hiding above the Circuit Judge in the Central County Court, the Court of Appeal and the Supreme Court have been two Monarchs, Queen Elizabeth II whom I described two decades ago as being a wicked and evil green witch towards me, ordering my persecution in the United Kingdom over the 26 years of my suffering defamation and of having consigned me to the Mental Health Services of the State; the mantle then being handed over to her successor King Charles III in the assumed Divine right of Kings and Queens to rule over the population as Absolute Monarchs. To find out the reality of what the Founder was confronted with he put in place legal procedures to have Queen Elizabeth dethroned in civil and criminal actions including issuing proceedings in The International Criminal Court from where judgment against King Charles III was not given due consideration seemingly because the United Kingdom was a permanent member of the Security Council of the United Nations which had veto powers over what this Court could process. It is for fighting for justice in this manner that the petitioner was intensely persecuted by the State over these years with the employment of the Security Services of MI5/MI6 and the Police.

Such criminals need to be brought to appropriate Courts of law to face justice and made to pay appropriate reparations to the victims of their crimes. But the unwritten Constitution allows highly corrupt individuals and businesses to commit crimes with impunity and conduct lesser but nonetheless fraudulent activities that the Police have not the resources nor the will to investigate and prosecute the perpetrators or are prevented from doing so by the Monarchical Establishment.

A Written Constitution would prevent the Monarchical Establishment from this form of dictatorial and tyrannical persecution of those who campaign for truth, justice and democracy, for these ethics if pursued by the State authorities through political means in Parliament would bring corruption to an end in society. The Monarchical Establishment operated in secrecy manipulating businesses and Media too who have then hoodwinked the public with fake news and propaganda so that they oppressed the petitioner who stood in their way of corrupt practices by employing freedom of expression. Similarly they manipulated the Judicial processes of the State against the petitioner in civil and criminal proceedings as a litigant, which whose personal experience of has documented extensively in his 28 websites and 319 eBooks available https://thealluremento frealityinreview.com/shop at or https://archive.org/details/@panigrahi491.

The Monarchical Establishment is nameless and faceless so that the only person one can take issue with is the Monarch himself or herself to flush them out in the open but the public is supposed to believe that Monarchs are immune from the legal processes of litigation, dethronement and impeachment in Parliament, an argument that the Judicial authorities interpreting the unwritten Constitution would then hide behind to deliberately deprive litigants of justice.

The reason that there is no written Constitution in the United Kingdom is that Monarchists facilitate the Monarch to become dictatorial from time to time in the course of history which will be fine if that is what the majority of the population actually wish but it should be explicitly documented into a written Constitution for the State. People are then fully informed on what to expect from their government.

The change from unwritten to a written Constitution will not enable the Head of State to discharge his or her duties secretively from behind the scenes away from the public eye. The role of the Constitutional Head of State should be hereditary from the existing Royal Family but Parliament's Select Committee for Public Administration and Constitutional Affairs (PACAS) will decide the appropriate document for voting in both the Chambers of Parliament on what it should be whether limited as proposed by Conservative Libertarians (UK) to be a Cultural Monarchy or having unlimited powers. The composition of this Select Committee should be 24 members, 12 each from the House of Commons and House of Lords. Each chamber of Parliament must have an internal Vote on the individuals who are selected to represent this Select Committee.

The Written Constitution must clearly outline the relationship between the Ceremonial Head of State and the Parliament at both House of Commons and the House of Lords.
The Written Constitution should be put to a Yes/No referendum of the population initially; and if there is a Yes decision from the electorate to have a Written Constitution all subsequent amendments to the Constitution when these take place through Parliamentary approval first must go to another referendum.

The Written Constitution should be prepared by the Select Committee who will be charged with this role, and document prepared must be subjected to a vote in the House of Commons chamber and then in the House of Lords before going to referendum.
The ceremonial Head of State will continue to be known the 'His or Her Majesty'.

The Speaker of the House of Commons will be solely responsible for all the technical proceedings of each Chamber, not the Lord/Lady President who will never enter these

Chambers for ceremonial functions. The Royal Assent to the current outline of the Executive's work to the Monarch in the House of Chambers will therefore be abolished.

The amendment to the present unwritten Constitution of the United Kingdom will therefore obtain clarity on the functionality of the State so that government officials are made accountable to the public at large, as these will be available to Courts to enter judgments in resonance with the written Constitution. Right now the Security Services can perpetrate tyranny on the people and the citizen has no chance of success in attempting to litigate and prosecute the police in the courts. Similarly one cannot litigate or prosecute the Prime Minister for causing untold misery to individuals because he or she is protected by the force of a dictatorial Constitutional monarchy secretively operating through preventing people knowing the relationships between the Monarch and the Prime Minister, the Security Services incorporating the Police, the Civil and Criminal Courts of the State, and the regulatory authorities at the Legal Ombudsman, the Parliamentary and Health Service Ombudsman the Solicitors Regulation Authority, the Bar Standards Board and the Financial Services Ombudsman. The regulation of Big Businesses especially are interfered with. These inter-relationships need to be identified and set in stone through a Written Constitution.

National Anthem
The national anthem will be rewritten along the lines of nations internal functions nationally and its devolved and dependent territories and objectives of the people in strengthening the nation.

Oath of allegiance
Citizens applying for Nationality and Members of the House of Commons and the House of Lords must continue to take an oath of allegiance to the Cultural Monarch as the figure-head Head of State.

Composition of the Houses of Commons and Lords
Thus, whereas the House of Commons would be a political chamber involving political parties, the House of Lords will be apolitical comprising of independent peers only and no hereditary peers.

The Royal Board will sift through applicants wishing to be Members of the Revision chamber on their qualifications which must be a minimum of Upper Second-Class Undergraduate degree in any discipline followed by 15 years of work experience. Thus the peers would be a minimum of 45 years of age and all-inclusive otherwise of differences in gender, race, religion, sexual orientation and marital status.

The Anglican Church
The Head of State, Cultural Monarch will remain as the Head of the Anglican Church.

Mental Health
The Mental Health Institution should be incorporated within the Law Enforcement Process and subject to explicit and reformed basis upon which the Mental Health Act is operated without recourse to the Law that is presently constituted and operates on the basis of. Every decision of Consultant Psychiatrists and Mental Health professionals should be subjected to the Mental Health Tribunal before Sectioning of an individual takes place in the committal of the person to a mental hospital.

Department of Justice

The Civil and Criminal Courts will remain as the currently operate with the State Prosecution Service under a Department of Justice with the Supreme Court being solely the third level of civil and criminal proceedings under Appeal through the Court of Appeal brought to it by litigants and private prosecutions against all including the institutions of the State such as the Police and the rest of the Security Services such as MI5/MI6. The Courts must intervene in the democratic process of the government in terms of day-to-day decisions and the enactment of laws and of governance in general. Thus the Courts and Tribunals will continue to be referred to as His or Her Majesty's Court and Tribunal Service but Law Enforcement (Police and Prosecution Service) will come under the sole supervision and management of the Ministry of Justice.

Declaration of Human Rights
Conservative Libertarians (UK) will not rejoin the European Union and will withdraw from the European Court of Human Rights. Instead the Constitution will include a Declaration on fundamental human rights of all citizens which will guide the House of Lords to scrutinise Bills of the Lower House that violate the principles of this Declaration.

Proportional Representation
The First past the post electoral system for the House of Commons, local Councils and devolved Assemblies must be replaced with a proportional representation system.

Approved ePetitions at the Parliament Website
In the absence of any of the current four political parties submitting these proposals to the due process of the House of Commons and the House of Lords despite detailed consultations, the only route identified by Conservative Libertarians (UK) was to submit two preliminary ePetitions to the government and parliament for due consideration. Conservative Libertarians (UK) implemented the following petition in May-June 2024:

What do you want the government to do?
Have an amended Constitution.
Institute a Select Committee Specially convened for the purpose as I have gone through all other processes of Parliament and it has not received a positive response.
To keep people better informed on who is in charge of procedures of the House of Commons and of the House of Lords, what the functions of the Consultant Psychiatrists, Chief Constables of Police Forces are and who are the officials against whom a citizen can successfully prosecute in civil and criminal courts of the United Kingdom.
Click this link to sign the petition:
https://petition.parliament.uk/petitions/662817/sponsors/new?token=5E2Eaduj6JGBy6S9rdVV

With 5 signatures as sponsors, Parliament would have to consider making the petition go live, and if that would gets past this hurdle following which 10,000 signatures are required for a government response to Conservative Libertarians (UK) on the Petition and 100,000 signatures would get lead to a debate in House of Commons.

The general election of 4 July 2024 halted the progress of all Petitions until a new Committee had to be convened following the election of a new Parliament.

When this new Committee was eventually in place, Conservative Libertarians (UK) obtained the required 5 signatures as sponsors to the following Petition:

Develop an official written Constitution in the United Kingdom for governance.

An unwritten Constitution foisted upon the people is wrong morally. A written Constitution is needed that outlines the relationships between the Head of State and Parliament at both Houses and in terms of their inter-connections with the Security Services, Judicial and other State institutions.

Unwritten Constitution makes a Monarchical Establishment to become secretively dictatorial and tyrannical to selected individuals and groups. With a written constitution people are fully informed on what to expect from the State and what is expected of them to the State. With a written Constitution people will be fully informed on who is in charge of procedures in Parliament, Mental Health Institutions, Security Services; and who a citizen can successfully prosecute in civil and criminal courts.

Click this link to sign the petition:

https://petition.parliament.uk/petitions/700677/sponsors/new?token=kXqTG3pEemMKEpeiJwHJ

The Petitions Team or Committee would not approve the version and proposed the following alternative Petition that Conservative Libertarians (UK) reluctantly agreed to see how far it would make progress after its publication by the Committee:

Petition Develop an official written Constitution in the UK
We believe we have an unwritten Constitution foisted on the people and this is wrong morally. We think a written Constitution is needed outlining relationships between Head of State and Parliament (both Houses) and their interconnections with Security Services, Judicial and other State institutions.

We think an unwritten constitution allows certain groups to have too much power. With a written constitution people are fully informed on what to expect from the State and what is expected of them to the State. With a written Constitution people could be fully informed on who is in charge of procedures in Parliament and other state bodies; and who a citizen can successfully prosecute in civil and criminal courts.
https://petition.parliament.uk/petitions/700677
Conservative Libertarians (UK) believes that think young people especially should sign the petition. Politics will always be in total shambles in the United Kingdom unless the Constitution is Amended.

Parliamentary Authorities for Queries from the Public
Parliament at both Houses will be accessible to the population for information and advice and directions on due process should there be concerns through petitions in the government and House of Commons website for open government. The email addresses should be as follows:
contactholmember@parliament.uk
HCEnquiries@parliament.uk
hlinfo@parliament.uk
pacac@parliament.uk

Public Petitions:
Conservative Libertarians (UK) has instituted the following two public petitions:
1. https://change.org/p/have-a-written-consitution-in-the-united-kingdom
2. https://you.38degrees.org.uk/petitions/develop-the-united-kingdom-into-a-republic

Prior Cross-Party Consultations:
The petitioner consulted the Reform UK Party, the Labour Party, the Liberal Democrats Party, the Conservatives and Unionist Party, the Green Party, the Scottish National Party and Plaid Cymru with the full details of this Policy proposal for the House of Commons between 30 June 2024 and 8 July 2024, but none of these Parties would comment on whether there were any objections, concerns or support for Cross-party Petition. Similarly Peter James Cook, a local Independent candidate requested the petitioner to leave him out of the discussions.

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

Please read this email in full as it includes important information on who I can respond to, response times and useful contacts.

Firstly, thank you for getting in touch with me – your message has been received safely. Although we will reply to you as quickly as possible, we have been receiving extremely high levels of correspondence so it may take some time for us to get back to you. We ask for your patience and assure you that we are working as hard as we can to provide you with an appropriate reply.
Please double check that in your email you have provided:

- Your full name
- Your full residential address within the constituency, including your postcode
- A contact telephone number
- Any relevant reference numbers and copies of any relevant documents

Please note, if you are contacting me via a campaign website you will need to include a valid email address in your message along with a full postal address.
Strict Parliamentary protocols mean that Members of Parliament may only assist with enquires on behalf of their own constituents. This why I need your residential address in full.
You can check whether I am you MP by putting your postcode in here
Response times
I receive hundreds of emails, letters and phone calls every day. I ask for your patience as my team and I may not be able to respond to you as quickly as we would like. I realise that this can feel frustrating – we do reply as soon as we can.

I prioritise replying to people with urgent personal issues, so if your email is about a question of policy, it may take me longer to respond. This is due to the time-sensitive nature of other requests for assistance. Thank you for your patience.
If you have copied me into an email to someone else, I will read, note and file your email but may not respond directly.
If you are contacting me about a meeting or request or invitation, please understand that I receive a great number of invitations and sadly it is simply not possible to accept them all. Your email will be passed onto my team who will get back to you as soon as they can.
Thank you for your patience and understanding.
Useful contacts
If you are getting in touch with a problem to do with roads, pavements, streetlights or abandoned cars, please report it to Somerset Council here
Somerset Council are also responsible for waste collections and many other services involved in protecting our local environment from noise and nuisance.
If you are homeless, or at risk of becoming homeless contact Somerset County Council here
If you are experiencing domestic violence, the charity Refuge will give you appropriate advice and support. Call them on 0808 2000 247 or visit https://refuge.org.uk/ .Finally, if you are having a tough time and you need someone to talk to, then no matter the situation you're in, the Samaritans are always available to talk with you. Call 116 123 from your phone.
Confidentiality
I take your privacy and confidentiality seriously. All the data we hold on you will be processed in line with General Data Protection Requirements (GDPR). For this reason, if you are contacting me in order to help someone else (even a close relative) I will need their permission to engage with you. I can supply you with a form for this purpose, but if you already hold a Lasting Power of Attorney (LPA) or similar document, please provide a copy of that to me now, to avoid any delay to your case.
Finally, while most of the emails I receive are entirely appropriate, I would ask you to make sure that your contacts with my team and I stay in line with my safe contacts policy, or sadly we will not be able to assist you.
Kind regards,
Gideon

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

Stuart Anderson MP

Member of Parliament for South Shropshire
Thank you for your email, you will receive a full response soon.
Have you included your full home address?
If not, please re-send your email with this information to receive a response. This is requested even if you email frequently.
Parliamentary protocol prevents an MP from dealing with enquiries from another MP's constituency, so be sure to check that you are a constituent of South Shropshire, as contacting the wrong representative can cause delays to your case. You can check online here: http://findyourmp.parliament.uk/.

I receive a large number of emails, letters and phone calls each day and I will try to reply to you as quickly as possible. However, please note that all communications, including emails, are dealt with in the order in which they are received.
We aim to respond to emails within 10 working days on all requests for assistance on personal cases or personally written emails relating to policy matters. Copy/pasted or automatically produced campaign text emails do not receive the same priority level and will receive a response but not in the normal timeframe of 10 working days.
I often receive emails that are not addressed to me, but where I am copied in. I read all emails in full. However, if the email is not addressed to me, I will assume you do not require a response – if this is not the case and you have copied me into the email because you would like me to take action, please re-send your email to me directly, stating that you would like a response.
I produce a regular newsletter which keeps constituents updated with my work in South Shropshire and Westminster. To sign up, please visit https://stuartanderson.org.uk/

Thank you for your email - this is an automated response to acknowledge its safe receipt. I receive very large volumes of emails, letters, and phone calls each day, and we aim to respond within 14 days, or more swiftly for urgent casework, which we prioritise.
Campaign emails following a standard format can on occasion take a little longer to respond to when urgent casework as taken precedence.
In order to receive a response, please ensure that you have provided your full name and full postal address - and please re-send your email with this information included if you had not originally included it, as there is a strict Parliamentary convention that MPs may only deal with/ respond on matters raised by their own constituents or businesses in the constituency, so I do need to know your address in order to verify you are a constituent, as we will not be able to respond to correspondence without an address.

Once again, thank you for taking the time to contact me.

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.
I believe in consensus politics so can we discuss these matters?

Yours sincerely

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/.

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court

institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

I am in the process of sending the book to as many MPs as finance allows Shantanu. TY for your assistance with this.

In the meantime, I must ask that you don't cc me into your correspondence with MPs. We are in the middle of a campaign and I don't think I share the libertarian conservative outlook.

What is the state of development of the party and what does it stand for?

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

Thank you for your response Peter, I will help your campaign with Finances as the family funds allow. I have commitments towards maintaining my websites that is fundamentally devoted to developing knowledge for world conservation. The full definition of what constitutes Conservative Libertarian outlook centres around the political structure of adhering to truth, justice and democracy, which is why I wish for a written Constitution which as things stand now (and depending on how the State responds to me) is a red line that I must stick to.

Politically in terms of socio-economics however if our future lies in more of liberal-socialistic outlook than what traditional Conservative and Unionist Party and now Reform Party prescribe we will adopt those measures for our Party. I have been twice a member of the Liberal Democracy but was on a fact-finding mission which took over my direction of travel so I jumped ships between all four parties before finally deciding that none of them satisfied my need, indeed conscientious compulsion for truth, justice and democracy.

The work of the Party in shaping its Constitution is in progress as you can see from the mountain of correspondence that I have generated.

Let me know if you think you can work with me in developing the fundamental philosophy of the Party: I admire your dedication to the United Kingdom so did not waste too much time in assisting with a limited amount of finances.

One thing that you should also bear in mind is that I do not proselytise my views whether religious or political. If people like what I write I will share my knowledge with them for I am a philanthropist having written 342 eBooks on the studies that I have conducted in the United Kingdom and although I place them for sale at £3-£5 each, all these books can be freely downloaded from Internet Archive for those who cannot afford them. Luckily my wife has a decent job and I have a pension so I do not go for Funding sources to work out how I can contribute best to the State of the United Kingdom.

I am open and transparent and not attached to any mission that momentarily captures my imagination so I act instantly, spontaneously, nonchalantly and unpremeditatedly in what I define as karma in sanatan dharma.

REVISED POST IN LIBERTARIAN DEMOCRACY:

Shantanu Panigrahi

I have been navigating the path to revelation as an alien Hindu immigrant in the United Kingdom

https://www.thelibertariandemocrats.com/forum/diary-of-the-author/i-have-been-navigating-the-path-to-revelation-as-an-alien-hindu-immigrant-in-the-united-kingdom

It had taken its natural course; now that all the truths are known to me and published as a philanthropic service to humanity I can just be my normal self unattached to being a Conservative Libertarian for it is an unsustainable manner to accommodate oneself within the present-day Constitution of the United Kingdom, hard as I tried with my website: https://theconservativelibertariansociety.com

I faced tremendous opposition but my Hindu yogic frame of mind was too strong to abandon the seeking of knowledge for a better course that humanity should follow got the better of me and I formulated my two Membership websites and promoted these with the promotion literature as follows:

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: https://app.joinit.com/o/conservative-libertarians/ and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at https://knowledgefoundersunited.com/.

In case you need additional information; please check here: https://www.theallurementofrealityinreview.com/shop.

Please read this email in full as it includes important information on who I can respond to, response times and useful contacts.

Firstly, thank you for getting in touch with me – your message has been received safely. Although we will reply to you as quickly as possible, we have been receiving extremely high levels of correspondence so it may take some time for us to get back to you. We ask for your patience and assure you that we are working as hard as we can to provide you with an appropriate reply.

Please double check that in your email you have provided:

- Your full name
- Your full residential address within the constituency, including your postcode
- A contact telephone number
- Any relevant reference numbers and copies of any relevant documents

Please note, if you are contacting me via a campaign website you will need to include a valid email address in your message along with a full postal address.

Strict Parliamentary protocols mean that Members of Parliament may only assist with enquires on behalf of their own constituents. This why I need your residential address in full.

You can check whether I am you MP by putting your postcode in here

Response times

I receive hundreds of emails, letters and phone calls every day. I ask for your patience as my team and I may not be able to respond to you as quickly as we would like. I realise that this can feel frustrating – we do reply as soon as we can.

I prioritise replying to people with urgent personal issues, so if your email is about a question of policy, it may take me longer to respond. This is due to the time-sensitive nature of other requests for assistance. Thank you for your patience.

If you have copied me into an email to someone else, I will read, note and file your email but may not respond directly.

If you are contacting me about a meeting or request or invitation, please understand that I receive a great number of invitations and sadly it is simply not possible to accept them all. Your email will be passed onto my team who will get back to you as soon as they can.

Thank you for your patience and understanding.

Useful contacts

If you are getting in touch with a problem to do with roads, pavements, streetlights or abandoned cars, please report it to Somerset Council here

Somerset Council are also responsible for waste collections and many other services involved in protecting our local environment from noise and nuisance.

If you are homeless, or at risk of becoming homeless contact Somerset County Council here

If you are experiencing domestic violence, the charity Refuge will give you appropriate advice and support. Call them on 0808 2000 247 or visit https://refuge.org.uk/ .Finally, if you are having a tough time and you need someone to talk to, then no matter the situation you're in, the Samaritans are always available to talk with you. Call 116 123 from your phone.

Confidentiality

I take your privacy and confidentiality seriously. All the data we hold on you will be processed in line with General Data Protection Requirements (GDPR). For this reason, if you are contacting me in order to help someone else (even a close relative) I will need their permission to engage with you. I can supply you with a form for this purpose, but if you already hold a Lasting Power of Attorney (LPA) or similar document, please provide a copy of that to me now, to avoid any delay to your case.

Finally, while most of the emails I receive are entirely appropriate, I would ask you to make sure that your contacts with my team and I stay in line with my safe contacts policy, or sadly we will not be able to assist you.
Kind regards,
Gideon

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

Stuart Anderson MP

Member of Parliament for South Shropshire
Thank you for your email, you will receive a full response soon.
Have you included your full home address?
If not, please re-send your email with this information to receive a response. This is requested even if you email frequently.
Parliamentary protocol prevents an MP from dealing with enquiries from another MP's constituency, so be sure to check that you are a constituent of South Shropshire, as contacting the wrong representative can cause delays to your case. You can check online here: http://findyourmp.parliament.uk/.
I receive a large number of emails, letters and phone calls each day and I will try to reply to you as quickly as possible. However, please note that all communications, including emails, are dealt with in the order in which they are received.
We aim to respond to emails within 10 working days on all requests for assistance on personal cases or personally written emails relating to policy matters. Copy/pasted or automatically produced campaign text emails do not receive the same priority level and will receive a response but not in the normal timeframe of 10 working days.
I often receive emails that are not addressed to me, but where I am copied in. I read all emails in full. However, if the email is not addressed to me, I will assume you do not require a response – if this is not the case and you have copied me into the email because you would like me to take action, please re-send your email to me directly, stating that you would like a response.
I produce a regular newsletter which keeps constituents updated with my work in South Shropshire and Westminster. To sign up, please visit https://stuartanderson.org.uk/

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

Thank you so much for getting in touch with me and my team. Please take this as acknowledgement that your email has been safely received by my team and I.

Dealing with your case
Parliamentary rules dictate that I can only take up the cases of people who live within the North Norfolk constituency. If you are unsure if I am your MP, you can check by going to https://members.parliament.uk/FindYourMP.

If your initial email did not contain this, please resend it with this information.
It will take us longer to take action on your email if you have not provided us with this information.
When will you hear from me?
On average, my small team and I are receiving around 400 emails every week from constituents. My team and I will endeavour to respond to you as quickly as possible, with the most urgent cases being prioritised.
If you have CC'd or BCC'd me in to an email to someone else, the content of your email will be read and noted, but I will assume that you do not require a reply unless your have specifically asked me to do so.
Who else can help?
You may be able to seek support from a number of different organisations locally who have direct responsibility for a wide range of issues. If you are unsure who is responsible for your issue, you can check using this guide which North Norfolk District Council have produced:

Thank you for your email - this is an automated response to acknowledge its safe receipt. I receive very large volumes of emails, letters, and phone calls each day, and we aim to respond within 14 days, or more swiftly for urgent casework, which we prioritise.
Campaign emails following a standard format can on occasion take a little longer to respond to when urgent casework as taken precedence.
In order to receive a response, please ensure that you have provided your full name and full postal address - and please re-send your email with this information included if you had not originally included it, as there is a strict Parliamentary convention that MPs may only deal with/ respond on matters raised by their own constituents or businesses in the constituency, so I do need to know your address in order to verify you are a constituent, as we will not be able to respond to correspondence without an address.
Once again, thank you for taking the time to contact me.

Dear Member of Parliament

I am Directing the progress of a political party that is at the point of inception, the details of which can be found here: https://app.joinit.com/o/conservative-libertarians/

I believe that we are at a point in history where we need to take urgent decisions on the direction that the United Kingdom should adopt going forwards.

The way I see things this morning having started Living from the Truth is that we in the United Kingdom have choices from which to take a decision as to the road ahead: either we live to a dictatorial Monarchy as now (what I have described as being constructed by Satan-evil elements of a bygone age) or we have an ornamental Monarchy as set out here: https://www.theconservativelibertariansociety.com/about-1 which essentially retains King Charles III and then Prince William and then Prince George etc as the next in line Cultural Head of the nation, or we just carry on as we are now and rejoin the European Union with its Court institutions such as the European Court of Justice, the International Criminal Court, and European Court of Human Rights to monitor the violation of the rights of human beings by the judicial structures of the United Kingdom as a final resort for people to take their cases to.

The special relationship of the United Kingdom with the United States of America is already under strain proving to be not what it has been cracked up to be. Our economy would seem to be better off with a bias in Europe.

I believe in consensus politics so can we discuss these matters?

THE CONSTITUTION
The Party Political Ethos
THE POLICY OF WRITTEN CULTURAL-REPUBLICAN CONSTITUTION PROPOSED BY CONSERVATIVE LIBERTARIANS (UK)
(Working Draft: 14.00 am 01 February 2025)

Preamble
People need to know where they stand in relation to the government under which they live.

The ethos and principles of The Conservative Libertarian Society (
https://theconservativelibertariansociety.com)
Conservative Libertarians (UK) situated at
https://www.theconservativelibertariansociety.com/blank is the political offshoot of the Global Movement The Conservative Libertarian Society' (TCLS) which currently also incorporates TCLP-USA situated at https://the-conservative-libertarian-party-of-usa.odoo.com/

TCLS and its offshoot subscribers are Vishista Advaita Vedantists (see http://vishistaadvaitavedanta.com) a universal religion that acknowledges the existence of a Personal God that they have named as being Sri Krishna-Durga but as humans they practice karma (actions) in sanatan dharma independent of God. A human being can be God through satya-advaita yoga of oneness with truth and through the mental loss of attachments to act spontaneously, nonchalantly and unpremeditatedly, eventually without inhibitions; yet even at its peak the person becomes at one and yet distinct from God in what is termed achintya bhed abheda tatwa. The religious congregation is named Vishista Advaita Sampradaya that is free of the biases of caste, race, language and sexual differences between individuals. Membership of the religion-based political movement can be taken here: https://app.joinit.com/o/conservative-libertarians/

Conservative Libertarians (UK) is an accredited political party with a preliminary application to the Electoral Commission but only has 3 members and no officials apart from the Founder and Leader of the TCLS and the Party, Dr Shantanu Panigrahi.

The philosophy of TCLS and hence Conservative Libertarians is security for liberty and liberty for security. This is the essence of living. We need to be very careful in making our decision on actions that we should take every moment of life by a thorough understanding of the laws of Nature, and taking opportunities to better ourselves materially and spiritually through the passage of time in a risk-averse attitude that conserves and builds the material and spiritual

'house' that we live in. This is the meaning of Environmental Sustainability at an individual level. One step at a time and see which way the wind blows before jumping on to the next step to try and enhance one's prospects for self-preservation and the appropriate development of the family and the wider society that we are governed by to regulate and control our human activities. Being libertarian per se is not the objective of the personal or communal struggle. One cannot isolate oneself from wider humanity, for we cannot each individually do all of the things that we need to feed, clothe, house, study and develop our knowledge which is the fundamental basis of actions individually and collectively. We need like-minded people according to the saying birds of a feather flock together to create a Party of political activists who would argue their case and take part in democracy to influence changes to the society in a peaceful and totally non-violent manner, not even protesting on the streets; by persuasion of ones principles and belief-led mission to better ourselves in our mental development and better our chances of survival in a tough Nature that restricts our abilities to act selfishly and in greed for gathering in the natural resources for our own consumption from the Planet that we inhabit. This is the ethos of Conservative Libertarianism, and it is a semi-secular conception in the sense that while we know God is the Creator of the universe and is a Personal God for those of faith, Nature has a built-in Gaia mechanism of checks and balances that carves the path to the emergence of new races and species of life forms on Earth; the existence of God should not concern humanity which has to mind its own business. It is therefore imperative that we focus only on taking the right decisions ourselves without resort to a higher authority, be that human or spiritual in being a Conservative Libertarian.

Conservative Libertarians (UK) believe that of paramount importance, the United Kingdom must have a written Constitution to begin with and in the longer term develop the nation into a Cultural Republic through the structures of democratic and law enforcement institutions that the Constitution must incorporate a declaration on human rights. By Cultural Republic, we swear allegiance to the Monarchical Establishment once we have shaped it to essential democratic imperatives that come from understanding human nature and its diversity.

Conservative Libertarians learnt through the Founder’s travel journey that ideals of truth, justice and democracy is not possible without structural changes to the Constitution of the United Kingdom because without changes society cannot prevent the present unwritten Constitution being misinterpreted by vested interests for corrupt purposes and across the board of the State. The Party has experienced tremendous shortcomings in this regard and so campaigns for started with prescribing an amended Constitution through due process in the Houses of Parliament, primarily by instituting a Select Committee specially convened for the purpose because the Party had gone through all other processes of Parliament and Courts and it has not received a positive response for this much-needed change. The objective of the Party is to develop a mild form of Republican Constitution that incorporates a Cultural Monarchy as the Head of State with a Written Constitution that keeps people well informed on who is in charge of the procedures of the Houses of Commons and Lords, what the functions of the Consultant Psychiatrists, Chief Constables of Police Forces are and who are the officials of the State institutions and agencies against whom a citizen can successfully prosecute in civil and criminal courts; these amendments that will make people and institutions across the board accountable to the public into the fundamental principles of truth, justice and democracy.

For these objectives to be met TCLS and hence Conservative Libertarians (UK) foster a State composed of a Royal Family with a difference in that the Monarch is assigned the status of a semi-ceremonial King or Queen (hence-forth entitled the Cultural-Monarch with implicit duties over the House of Lords, the revision chamber of Parliament that functions as in the traditional democratic institutions the House of Commons being elected a political institution derived

from an electorate of 18-aged plus citizens up to the 85 years of age, this upper age limit being set by the medical determination that the productive capacity of individuals to contribute to the State is limited to by their age when their judgments become haphazard from senile day, dementia/Alzheimer's and other disorders in physical and mental attributes. This would apply also to the Cultural Monarch as the figure-head Head of State, who should further only remain in that position for a fixed reign of 20 years at a single stint following which his or her continuation in the role must be put to the electorate in a referendum when people have the opportunity to judge whether he or she has discharged his/her duties to the State to an acceptable standard. Within this ethos, Parliamentary decisions on enactment of laws are to be revised by the traditional process by peers in the House of Lords as currently in place with the scrutiny being final and simply rubber-stamped by the Cultural Monarch. The Privy Council will be renamed as the Royal Board with altered functions as an institutional chamber to direct the democratic processes of the House of Lords on behalf of the Cultural Monarch who will only sign on the dotted line for final endorsement of a Parliamentary decision. By making the House of Lords an elected chamber, it would be the second chamber whose decisions are final on Bills enacted at the House of Commons.

Thus, the House of Lords as an elected Chamber can override the decisions of the Prime Minister in the House of Commons after the usual three revisions of legislation voted on in Lower Chamber as a Bill goes to and fro until agreement is reached between the Prime Minister and the House of Lords.

The House of Commons will be political Parliament according to party-politics but the House of Lords will be apolitical. Being the Administration of Parliament all government Ministers will be appointed by the Prime Minister from the lower chamber and the Civil Service will be attached solely to this Executive.

The present Privy Council with intersections with different elements of the State will therefore be abolished by its Royal Board replacement as an independent body attached interfaced between the House of Lords and the Cultural Monarch; to the latter as an advisory institution ceremoniously signing on the dotted line. The Royal Board will be responsible for the selection of candidates applying to stand independently in elections to the higher Chamber of Parliament. It will appoint 3 candidates in each of enlarged Constituency with the First past the post system of election. The House of Lords will have 200 peers.

Legislation proceedings in the House of Commons will therefore continue to be read any kind of Royal scrutiny by the Cultural Monarch's speeches at the beginning of each term of Parliament and the proceedings in each chamber will be conducted by the Speaker elected from within each House that will set out the Bills for debating in the next Session of Parliament; the Speakers thereby only giving ceremonial assent to the Bills from the Executive presented by the Prime Minister for debate and amendments in the Lower Chamber implementing the policies of the Party that that form the government as a result of who wins the general elections. The House of Lords revision of Bills will be restricted to only those formulated in the House of Commons. The Prime Minister will not have audience with the Cultural Monarch during a Parliament.

Conservative Libertarians (UK) will therefore reform of the House of Commons and the House of Lords as elected chambers of Parliament. The Executive will be appointed as the Prime Minister by the elected political parties with no requirement of Royal prerogative powers for government Bills have to be agreed with the House of Lords. The Commons will remain the administration of government without being subjected to the daily oversight of the House of Lords and Royal Board headed by the Cultural Monarch except for the enactment of Bills voted for by Members

of Parliament in the lower chamber after its passage through the House of Lords. The Cultural Monarch will solely appoint the members of the Royal Board, which will have 12 selected officials. This would be the only power of the Cultural Monarch in the government of the nation. The Prime Minister in the House of Commons and will write Speaker's Speech in the House of Commons with the Speaker delivering it from the Executive in a ceremonial role. The Commons will therefore not take directives of the Cultural Monarch. The House Lords who would be elected every 10 years whereas the House of Commons will have fixed 5-year terms with the Prime Minister not having the power to call an earlier general election at any time without a vote in the Lower Chamber decided by a simple majority. The House of Lords will not have the power to intervene when the general election is held.

There will be devolution of political administration to local elected Councils and regional States under Federation as Scotland, Wales, Northern Ireland and England Overseas Dependencies and Territories such as the Falkland Islands. These territories will be free to make their own decisions on how their local governments operate through votes in local referenda without having to seek approval from Westminster.

Rationale for Amendment to a Written Cultural-Republican Constitution
Conservative Libertarians (UK), on 17 May 2024, became a Republican Party, for reasons set out here: https://www.theconservativelibertariansociety.com/post/the-conservative-libertarian-party-of-the-united-kingdom-turns-republican.

The government must serve the people, not the people serve the government.

The Founder of Conservative Libertarians (UK) has specialised in dealing with national and international criminals that he started this project in 1998 when in the University of Greenwich that continues to owe me £55,000 in severance pay with its co-conspirators going by the pseudonym of Victims of Panigrahi Association (VOPA) who were then and have since then terrorised the Founder, but he found a way of coping with it. He did not care where they persecutors come from, he endured police brutality, victimisation, religious persecution, obstruction of justice and flagrant perverting of the course of justice that deprived him of £300 million in damages and compensation and an apology that he demanded against the co-conspirators operating with the University of Greenwich. In the end what was revealed is that the Courts and Judges processing his Claim against the Police and successive Prime Ministers responsible for the miscarriage of justice were directed by forces above, and this was the existence of a highly secretive Monarchical Establishment.

Hiding above the Circuit Judge in the Central County Court, the Court of Appeal and the Supreme Court have been two Monarchs, Queen Elizabeth II whom I described two decades ago as being a wicked and evil green witch towards me, ordering my persecution in the United Kingdom over the 26 years of my suffering defamation and of having consigned me to the Mental Health Services of the State; the mantle then being handed over to her successor King Charles III in the assumed Divine right of Kings and Queens to rule over the population as Absolute Monarchs. To find out the reality of what the Founder was confronted with he put in place legal procedures to have Queen Elizabeth dethroned in civil and criminal actions including issuing proceedings in The International Criminal Court from where judgment against King Charles III was not given due consideration seemingly because the United Kingdom was a permanent member of the Security Council of the United Nations which had veto powers over what this Court could process. It is for fighting for justice in this manner that the petitioner was intensely persecuted by the State over these years with the employment of the Security Services of MI5/MI6 and the Police.

Such criminals need to be brought to appropriate Courts of law to face justice and made to pay appropriate reparations to the victims of their crimes. But the unwritten Constitution allows highly corrupt individuals and businesses to commit crimes with impunity and conduct lesser but nonetheless fraudulent activities that the Police have not the resources nor the will to investigate and prosecute the perpetrators or are prevented from doing so by the Monarchical Establishment.

A Written Constitution would prevent the Monarchical Establishment from this form of dictatorial and tyrannical persecution of those who campaign for truth, justice and democracy, for these ethics if pursued by the State authorities through political means in Parliament would bring corruption to an end in society. The Monarchical Establishment operated in secrecy manipulating businesses and Media too who have then hoodwinked the public with fake news and propaganda so that they oppressed the petitioner who stood in their way of corrupt practices by employing freedom of expression. Similarly they manipulated the Judicial processes of the State against the petitioner in civil and criminal proceedings as a litigant, which whose personal experience of has documented extensively in his 28 websites and 319 eBooks available https://thealluremento frealityinreview.com/shop at or https://archive.org/details/@panigrahi491.

The Monarchical Establishment is nameless and faceless so that the only person one can take issue with is the Monarch himself or herself to flush them out in the open but the public is supposed to believe that Monarchs are immune from the legal processes of litigation, dethronement and impeachment in Parliament, an argument that the Judicial authorities interpreting the unwritten Constitution would then hide behind to deliberately deprive litigants of justice.

The reason that there is no written Constitution in the United Kingdom is that Monarchists facilitate the Monarch to become dictatorial from time to time in the course of history which will be fine if that is what the majority of the population actually wish but it should be explicitly documented into a written Constitution for the State. People are then fully informed on what to expect from their government.

The change from unwritten to a written Constitution will not enable the Head of State to discharge his or her duties secretively from behind the scenes away from the public eye. The role of the Constitutional Head of State should be hereditary from the existing Royal Family but Parliament's Select Committee for Public Administration and Constitutional Affairs (PACAS) will decide the appropriate document for voting in both the Chambers of Parliament on what it should be whether limited as proposed by Conservative Libertarians (UK) to be a Cultural Monarchy or having unlimited powers. The composition of this Select Committee should be 24 members, 12 each from the House of Commons and House of Lords. Each chamber of Parliament must have an internal Vote on the individuals who are selected to represent this Select Committee.

The Written Constitution must clearly outline the relationship between the Ceremonial Head of State and the Parliament at both House of Commons and the House of Lords.

The Written Constitution should be put to a Yes/No referendum of the population initially; and if there is a Yes decision from the electorate to have a Written Constitution all subsequent amendments to the Constitution when these take place through Parliamentary approval first must go to another referendum.

The Written Constitution should be prepared by the Select Committee who will be charged with this role, and document prepared must be subjected to a vote in the House of Commons chamber and then in the House of Lords before going to referendum.
The ceremonial Head of State will continue to be known the 'His or Her Majesty'.
The Speaker of the House of Commons will be solely responsible for all the technical proceedings of each Chamber, not the Lord/Lady President who will never enter these Chambers for ceremonial functions. The Royal Assent to the current outline of the Executive's work to the Monarch in the House of Chambers will therefore be abolished.

The amendment to the present unwritten Constitution of the United Kingdom will therefore obtain clarity on the functionality of the State so that government officials are made accountable to the public at large, as these will be available to Courts to enter judgments in resonance with the written Constitution. Right now the Security Services can perpetrate tyranny on the people and the citizen has no chance of success in attempting to litigate and prosecute the police in the courts. Similarly one cannot litigate or prosecute the Prime Minister for causing untold misery to individuals because he or she is protected by the force of a dictatorial Constitutional monarchy secretively operating through preventing people knowing the relationships between the Monarch and the Prime Minister, the Security Services incorporating the Police, the Civil and Criminal Courts of the State, and the regulatory authorities at the Legal Ombudsman, the Parliamentary and Health Service Ombudsman the Solicitors Regulation Authority, the Bar Standards Board and the Financial Services Ombudsman. The regulation of Big Businesses especially are interfered with. These inter-relationships need to be identified and set in stone through a Written Constitution.

National Anthem
The national anthem will be rewritten along the lines of nations internal functions nationally and its devolved and dependent territories and objectives of the people in strengthening the nation.

Oath of allegiance
Citizens applying for Nationality and Members of the House of Commons and the House of Lords must continue to take an oath of allegiance to the Cultural Monarch as the figure-head Head of State.

Composition of the Houses of Commons and Lords
Thus, whereas the House of Commons would be a political chamber involving political parties, the House of Lords will be apolitical comprising of independent peers only and no hereditary peers.

The Royal Board will sift through applicants wishing to be Members of the Revision chamber on their qualifications which must be a minimum of Upper Second-Class Undergraduate degree in any discipline followed by 15 years of work experience. Thus the peers would be a minimum of 45 years of age and all-inclusive otherwise of differences in gender, race, religion, sexual orientation and marital status.

The Anglican Church
The Head of State, Cultural Monarch will remain as the Head of the Anglican Church.

Mental Health
The Mental Health Institution should be incorporated within the Law Enforcement Process and subject to explicit and reformed basis upon which the Mental Health Act is operated without

recourse to the Law that is presently constituted and operates on the basis of. Every decision of Consultant Psychiatrists and Mental Health professionals should be subjected to the Mental Health Tribunal before Sectioning of an individual takes place in the committal of the person to a mental hospital.

Department of Justice
The Civil and Criminal Courts will remain as the currently operate with the State Prosecution Service under a Department of Justice with the Supreme Court being solely the third level of civil and criminal proceedings under Appeal through the Court of Appeal brought to it by litigants and private prosecutions against all including the institutions of the State such as the Police and the rest of the Security Services such as MI5/MI6. The Courts must intervene in the democratic process of the government in terms of day-to-day decisions and the enactment of laws and of governance in general. Thus the Courts and Tribunals will continue to be referred to as His or Her Majesty's Court and Tribunal Service but Law Enforcement (Police and Prosecution Service) will come under the sole supervision and management of the Ministry of Justice.

Declaration of Human Rights
Conservative Libertarians (UK) will not rejoin the European Union and will withdraw from the European Court of Human Rights. Instead the Constitution will include a Declaration on fundamental human rights of all citizens which will guide the House of Lords to scrutinise Bills of the Lower House that violate the principles of this Declaration.

Proportional Representation
The First past the post electoral system for the House of Commons, local Councils and devolved Assemblies must be replaced with a proportional representation system.

Approved ePetitions at the Parliament Website
In the absence of any of the current four political parties submitting these proposals to the due process of the House of Commons and the House of Lords despite detailed consultations, the only route identified by Conservative Libertarians (UK) was to submit two preliminary ePetitions to the government and parliament for due consideration. Conservative Libertarians (UK) implemented the following petition in May-June 2024:

What do you want the government to do?
Have an amended Constitution.
Institute a Select Committee Specially convened for the purpose as I have gone through all other processes of Parliament and it has not received a positive response.
To keep people better informed on who is in charge of procedures of the House of Commons and of the House of Lords, what the functions of the Consultant Psychiatrists, Chief Constables of Police Forces are and who are the officials against whom a citizen can successfully prosecute in civil and criminal courts of the United Kingdom.

With 5 signatures as sponsors, Parliament would have to consider making the petition go live, and if that would gets past this hurdle following which 10,000 signatures are required for a government response to Conservative Libertarians (UK) on the Petition and 100,000 signatures would get lead to a debate in House of Commons.

The general election of 4 July 2024 halted the progress of all Petitions until a new Committee had to be convened following the election of a new Parliament.

When this new Committee was eventually in place, Conservative Libertarians (UK) obtained the required 5 signatures as sponsors to the following Petition:

Develop an official written Constitution in the United Kingdom for governance.
An unwritten Constitution foisted upon the people is wrong morally. A written Constitution is needed that outlines the relationships between the Head of State and Parliament at both Houses and in terms of their inter-connections with the Security Services, Judicial and other State institutions.

Unwritten Constitution makes a Monarchical Establishment to become secretively dictatorial and tyrannical to selected individuals and groups. With a written constitution people are fully informed on what to expect from the State and what is expected of them to the State. With a written Constitution people will be fully informed on who is in charge of procedures in Parliament, Mental Health Institutions, Security Services; and who a citizen can successfully prosecute in civil and criminal courts.

The Petitions Team or Committee would not approve the version and proposed the following alternative Petition that Conservative Libertarians (UK) reluctantly agreed to see how far it would make progress after its publication by the Committee:

Petition Develop an official written Constitution in the UK
We believe we have an unwritten Constitution foisted on the people and this is wrong morally. We think a written Constitution is needed outlining relationships between Head of State and Parliament (both Houses) and their interconnections with Security Services, Judicial and other State institutions.

We think an unwritten constitution allows certain groups to have too much power. With a written constitution people are fully informed on what to expect from the State and what is expected of them to the State. With a written Constitution people could be fully informed on who is in charge of procedures in Parliament and other state bodies; and who a citizen can successfully prosecute in civil and criminal courts.

Conservative Libertarians (UK) believes that think young people especially should sign the petition. Politics will always be in total shambles in the United Kingdom unless the Constitution is Amended.

Parliamentary Authorities for Queries from the Public
Parliament at both Houses will be accessible to the population for information and advice and directions on due process should there be concerns through petitions in the government and House of Commons website for open government. The email addresses should be as follows:
contactholmember@parliament.uk
HCEnquiries@parliament.uk
hlinfo@parliament.uk

pacac@parliament.uk

Public Petitions:
Conservative Libertarians (UK) has instituted the following two public petitions:
1. https://change.org/p/have-a-written-consitution-in-the-united-kingdom
2. https://you.38degrees.org.uk/petitions/develop-the-united-kingdom-into-a-republic

Prior Cross-Party Consultations:
The petitioner consulted the Reform UK Party, the Labour Party, the Liberal Democrats Party, the Conservatives and Unionist Party, the Green Party, the Scottish National Party and Plaid Cymru with the full details of this Policy proposal for the House of Commons between 30 June 2024 and 8 July 2024, but none of these Parties would comment on whether there were any objections, concerns or support for Cross-party Petition. Similarly Peter James Cook, a local Independent candidate requested the petitioner to leave him out of the discussions.
